

Combining studies and a good time, is not an easy task. Having a number of experiences in different language schools, I can say that none of them completely satisfied ~~that~~ this concept. However, I can assure you that it is possible, as I had the opportunity to spend ~~a~~ couple of months at SPRACHCAFFEE LANGUAGE PLUS in MALTA, which was the most fulfilling and enjoyable linguistic experience I have ever had.

To begin with, SPRACHCAFFEE LANGUAGE PLUS school is pleasantly and conveniently situated, since it is surrounded by nature and is walking distance from everything you need such as shops, banks, supermarkets, chemist's, shopping centers, beaches, the entertainment and nightclub district, as well as buses which connect you to other places around the Island.

Moreover, the architecture of the school is unique as it was a British military's base in its colonial past. The original buildings have been well conserved with extra facilities to meet the demand of an International school. There are a good number of class rooms well equipped, brightly lit and airy, a softly lit and comfortably fitted Bistro where I spent many hours resting and talking with friends around a meal or a drink ~~with~~, the friendly atmosphere in there reminded me of home.

~~And~~ Additionally, this all surrounds a spacious outdoor area which includes a beach volleyball court, a huge inground swimming pool, a pretty garden, numerous sunbeds and picnic benches, which enables students to interact with many other people of different nationalities and bond with each other.

Furthermore, it attracts a great number of people every year due to the teachers' professionalism and their approach to teaching which is just as serious as it is fun. I personally love learning in such kind of atmosphere. And it is hard to get bored as the teachers know how to catch the students' attention and keep them interested in the lessons or activities. The school is well known as being a great preparatory establishment for Cambridge exams.

Overall, I recommend spending a few weeks or months in Malta which is ~~a~~ heaven on earth, and joining this school to improve your English at the same time, would be an idyllic and unforgettable adventure.
